*Creating the
future today*

#Futuristic

Darmstadt is where science and research come together in a pioneering spirit.

Darmstadt: A digital city, software giant, the backbone of European space travel (ESA/ESOC), a science city, a university city (three universities), a research centre (approx. 25 research institutes) and the headquarters of some renowned global corporations.

Darmstadt ranks second in Germany in the 'demography' category for future prospects and is one of Germany's top 10 digital hotspots.

"Darmstadt
is Germany's answer
to Silicon Valley."

#Meet

**The driving force in the city of science and digitalisation:
The future meets in darmstadtium.**

Darmstadt has held the title of city of science since 1997 and was chosen to become a model digital city in 2017. A city of the future experiencing ongoing transformation. darmstadtium is a congress centre that serves as a modern, ground-breaking meeting place and space for networking, bringing together innovative forces from the fields of science and industry.

DO IT YOUR WAY!

The remarkable technology in our congress halls and conference rooms offers great flexibility.

GO GREEN!

When it comes to sustainability, darmstadtium is one of the world's most modern event venues.

GET CONNECTED!

Superb IT infrastructure in the truest sense of the word.

GET INSPIRED!

Discover new perspectives for your business in futuristic, transparent architecture!

DARMSTADT AT A GLANCE

#SCIENCE #CULTURE #LIFE

Darmstadt is a modern, lively congress city brimming with culture and flair: museums, theatres, clubs, the Vivarium and much more await you.

The Mathildenhöhe, an integrated artwork comprising the Wedding Tower, Artists' Colony Museum, Artists' Houses, Russian Chapel and grove of plane trees, is considered the cradle of modernism and, as such, has been a World Heritage Site since 2021.

More about
tourism

● Social programmes in Darmstadt combine many aspects of science and culture from visiting the primeval horse at the Messel Pit World Heritage Site to exploring Venus at ESA/ESOC. The city offers event organisers a wealth of attractive **locations for side events**: from hip industrial locations to baroque castles, from basement clubs to skyscraper lounges.

● Darmstadt is located in the heart of Europe in the Rhine-Main/ Rhine-Neckar metropolitan regions and has **excellent transport connections**. Darmstadt Central Station is a stop for IC and ICE trains. Within Darmstadt, there is a dense network of tram and bus routes, car sharing and other mobility services. Frankfurt Airport has a direct connection to Darmstadt via the AirLiner bus shuttle.

● The Mathildenhöhe in Darmstadt is within walking distance of the darmstadttium and has been a **World Heritage Site** since 2021. The Messel Pit World Heritage Site is also just a few minutes' drive away. The Hessian State Museum, one of the oldest all-round museums in Europe with collections covering art, culture and natural history, as well as hosting temporary exhibitions, is located in the immediate vicinity of the darmstadttium.

● Travel directly to Darmstadt from Frankfurt Airport. The **AirLiner** is a state-of-the-art shuttle bus equipped with Wi-Fi, which runs between the darmstadttium and the airport over 30 times a day.

● Darmstadt currently offers over **3,300 hotel rooms** for visitors. There is a modern 4-star hotel with 208 rooms neighbouring the darmstadttium. Within a radius of 2.5 kilometres, there are over 1,700 rooms.

**# AND EASY
TO REACH**

#02 / Scalability

TECHNOLOGY THAT MAKES EVERYTHING POSSIBLE

The fully scalable room concept at the darmstadtium makes (almost) anything possible. The main congress hall “spectrum” literally offers the entire spectrum of possibilities. In general the space concept throughout the building is characterised by maximum flexibility.

| The ferrum congress hall also has a separate external entrance.

| Naturally, the conference rooms at the darmstadtium can also be combined flexibly.

| In addition state-of-the-art multimedia technology in all locations ensures plenty of scope.

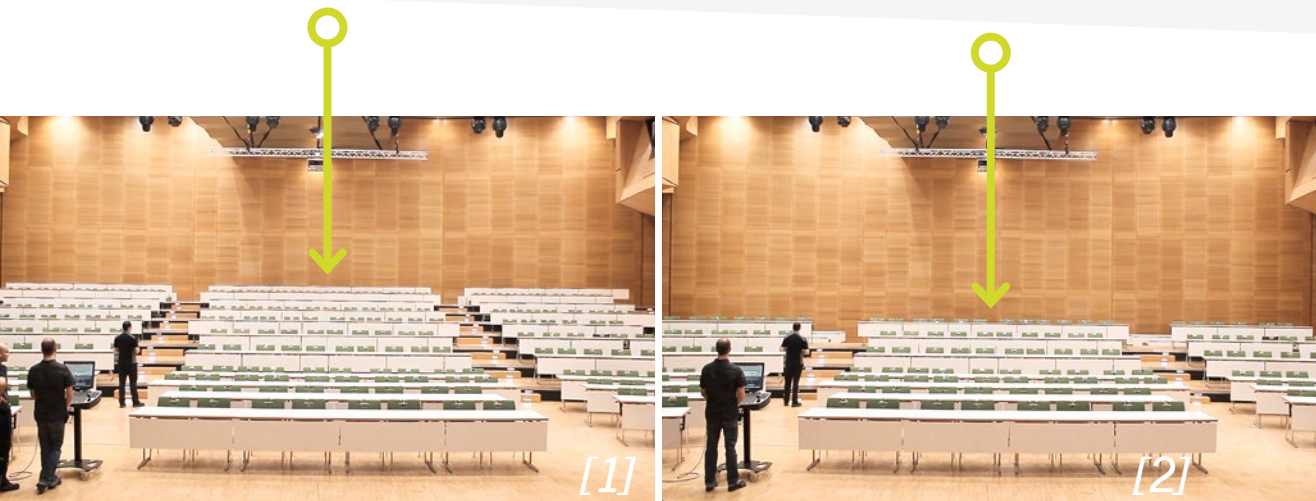

| The spectrum congress hall can be divided into two or three halls.

| Lifting platforms for seating allow the hall(s) to be quickly converted into an auditorium, e.g. for congresses, concerts or spectacular productions, or into a completely flat floor space, e.g. for galas or exhibitions.

| A lifting gate opens the congress hall up to the entrance foyer.

| The surrounding foyer areas can be used for various purposes, e.g. for accompanying exhibitions.

**GET
CONNECTED!**

*Uncompromising
IT performance!*

IT-HOTSPOT: GET CONNECTED

The darmstadtium is a pioneer in the event industry when it comes to the megatrend of connectivity, offering organisers and guests a high-performance wireless network for seamless in-house coverage. Excellent mobile phone reception is available throughout the building, including the underground car park.

Thanks to our collaboration with TU Darmstadt, an external internet connection with up to 100 GB is also possible. The Wi-Fi solution with uniform network management and security functions always ensures maximum customer satisfaction.

The darmstadtium is thus the first choice for technically demanding user conferences and product presentations. In addition to the outstanding hardware and software solutions, this is also due to the intensive support and first-class assistance provided by the in-house IT specialists. No hardware rental, no lengthy setup, cabling and dismantling work – you arrive and take over a fully functional, tested, fast and secure network.

- | Unique network technology at a large-scale provider level
- | Maximum speed and extreme reliability thanks to consistent redundancy
- | Comprehensive wireless network with 100 centrally controlled access points
- | Wi-Fi 6E standard (as of 2025 – under further development)
- | VLAN technology for cost-effective provision of individual customer networks
- | Continuous further development at the highest level

INTERNATIONAL AWARDS FOR THE DARMSTADIUM

In 2014 and 2019, the darmstadtium received the INCON Digital Infrastructure Award for its first-class digital infrastructure and its continuous development beating Melbourne and Amsterdam into second and third places respectively.

“Here, you find yourself
surrounded by technical
innovations, at the
cutting edge of what is
possible today.”

Conference participant
from the software industry

More about
connectivity:

#04 / Responsibility

GREEN MEETINGS

The darmstadtium is a showcase for sustainability, resource conservation and intelligent energy use, making it the ideal choice as a future-oriented and climate-friendly conference venue.

The darmstadtium's sustainability concept dynamically combines both architectural and technical features. The energy mix integrates renewable energy sources such as photovoltaics, geothermal energy and biomass, and also includes the use of rainwater and heat recovery.

- | The in-house biomass boiler is fuelled by wood chips from the region.
- | Use of 100 % green electricity
- | All stationary CO₂ emissions from the darmstadtium are accurately recorded, transparently declared and offset as far as possible.
- | Green Arrival: discounted public transport congress tickets for local mobility
- | Green electricity-powered e-charging stations in the underground car park
- | The darmstadtium is the first congress centre in Europe with EMASplus certification.

More about the sustainability concept:

FERRUM CONGRESS HALL

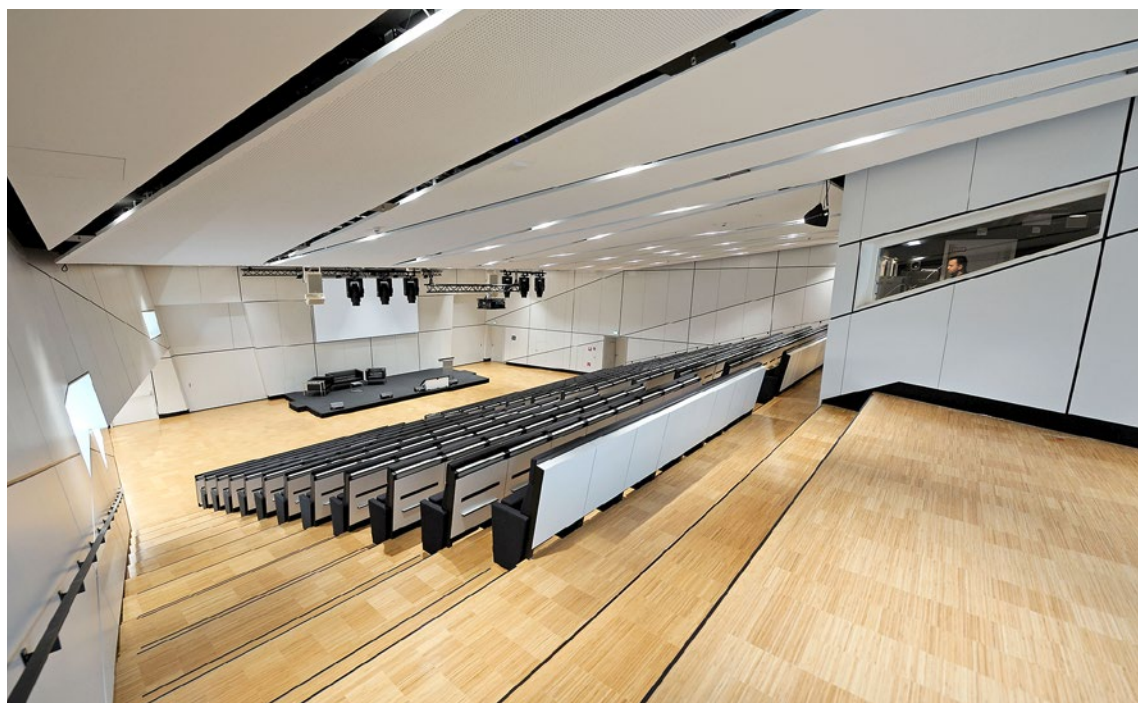

With 650m² of space, ferrum offers seating for up to 383 people (281 fixed, 102 mobile seats) in cinema-style seating with foldable business tables. With additional foyer areas on two levels, its own sanitary facilities, cloakroom and separate external access, ferrum offers additional space for smaller congresses, conferences and presentations.

- | Foldable business tables, each with its own power socket
- | Daylight with shading option
- | Latest multimedia technology
- | State-of-the-art sound and lighting systems
- | Customised colour scheme in corporate design possible
- | Comprehensive Wi-Fi coverage
- | Bamboo parquet flooring
- | Variable walls between hall and foyer
- | LAN connection (high speed)
- | Floor boxes (power, LAN)
- | Integrated brochure holders – can also be used as laptop holders

*Folding business table
with individual power socket*

WHAT OUR CUSTOMERS SAY:

“ ”

“Every year, we hold the German Environmental Award ceremony at a different location in Germany. This allows us to compare different event centres and conclude that you in Darmstadt are doing an outstanding job. Your service is among the best in the industry at all levels.”

MARKUS GROBE OPHOFF, DBU

“ ”

“The darmstadtium offers us the perfect stage to bring South Hesse's Silicon Valley to life. Its modern infrastructure and flexible room concept enable us to seamlessly combine our conference, job fair and festival – a real highlight for the tech community.”

PHILIPP UMBECK, ITCS CONFERENCE GMBH

“The darmstadtium is a great fit for the international city of science – Darmstadt. A futuristic, almost ‘spacy’ building, spacious rooms, solid technology and competent management. It’s an ideal environment for large specialist conferences and PR events.”

BERNHARD L. VON WEYHE, ESA

The darmstadtium has repeatedly proven to be the ideal choice for our ENGINEERING SUMMIT event. The flexibility of the modern facilities, excellent technical equipment and professional team make the darmstadtium a great partner for our event. Alongside the first-class in-house catering, the strong commitment to sustainability is a particular highlight of this location.”

ISABEL DIENER, HÜTHIG MEDIEN GMBH

Outdoor forecourt

ATRIUM, FOYERS AND FORECOURT

In addition to the impressive atrium of the darmstad stadium with its fascinating Calla, the congress centre offers further spacious foyer areas arranged around the congress hall. The atrium and foyers on Level 1, which surround the spectrum congress hall, cover an area of approx. 2,750 m².

- | The foyers on Level 3, with a total area of approx. 900 m², are ideal for accompanying exhibitions.
- | The east foyer on Level 3 can be set up for galas with banquet seating, for example, and offers a breathtaking ambience.
- | All foyer areas are suitable for catering.
- | On Level 0, the copernicium and dynamicum rooms can be integrated into the foyer area.

The **forecourt** has a LAN connection, floor boxes and an electric charging station.

#06 / Service

Hosting an event – whether a congress, conference, company meeting or incentive – requires professional organisation and comprehensive planning. The darmstadttium has a competent team of consultants at your disposal to help you realise your event and cater to your individual wishes.

Two catering partners fulfil both small and large requests. Like the congress centre, the darmstadttium's catering partners focus on innovative catering solutions. The focus is on seasonal, regional, sustainable produce and, above all, your individual wishes.

WINNING SMILE: INDIVIDUAL SERVICE

We are happy to assist you in all areas of the conception, planning, organisation, implementation and follow-up of your event. On request, we can handle the following tasks for you:

- | Hotel reservations and bookings
- | Organisation of supporting programmes
- | Organisation of shuttle services
- | Exhibition stand construction and design
- | Comprehensive PCO services, such as the creation of professional conference documents, development and procurement of event programmes and banners, in coordination with the Darmstadt Convention Bureau.

#08 / Getting here

CENTRAL. MODERN. CONGRESS.

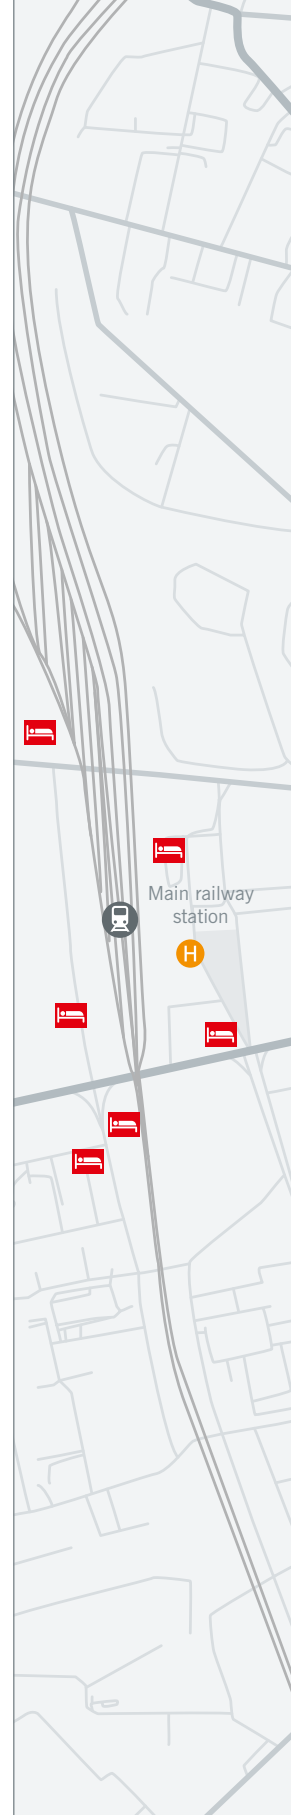

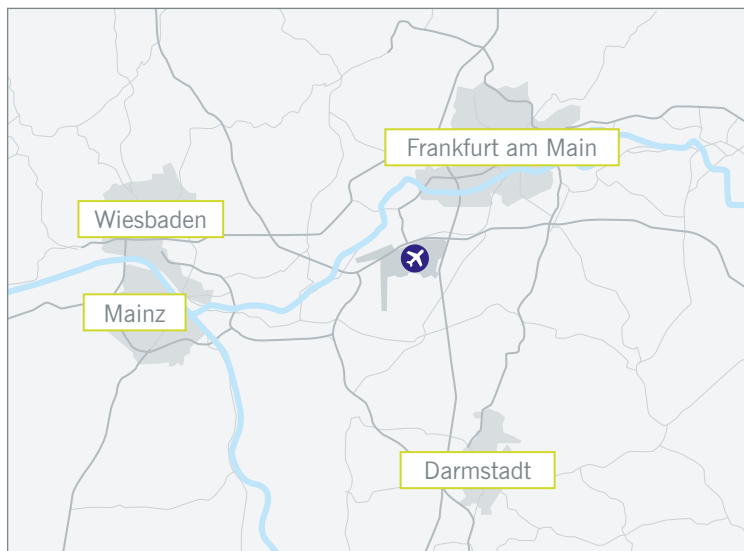

The darmstadtium is conveniently located in the centre of the Rhine-Main/Rhine-Neckar metropolitan regions. The AirLiner airport shuttle runs every half hour and takes around 30 minutes to travel directly from Frankfurt Airport to the congress centre.

You can use your Deutsche Bahn event ticket and a congress ticket for local public transport via the darmstadtium. For all journeys within Darmstadt, there is also a Call-A-Bike and a car-sharing station in the immediate vicinity.

Darmstadt offers numerous cultural highlights within walking distance of the darmstadtium, e.g. the Hessian State Museum and the Mathildenhöhe World Heritage Site.

A total of over 3,300 hotel rooms (as of early 2025) are available in Darmstadt. There is a modern 4-star hotel with 208 rooms in the immediate vicinity of the darmstadtium, and over 1,700 rooms are available within a 2.5-kilometre radius of the congress centre.

CENTRALSTATION

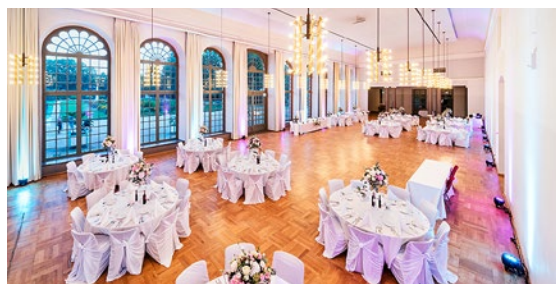

Take advantage of our wide range of partner locations when planning your event. An evening at the Centralstation is the perfect complement to your daytime event at the darmstadtdium. The Centralstation is located in Darmstadt city centre – only a 5-minute walk away.

In addition to the Centralstation and the Orangerie, four other event locations are available.

- | Just a 5-minute walk from the darmstadtdium
- | Unique atmosphere for evening events with up to 1,100 guests
- | 1,000 m² outdoor area
- | State-of-the-art technology: sound, lighting, projection and internet
- | 450 m² hall with 7-metre-high ceilings for up to 950 people
- | The BAR is ideal for groups of up to 70 people
- | 450 m² hall on the 3rd floor: festive atmosphere for up to 400 people

More about
Centralstation:

ORANGERIE

This Baroque building in Bessungen, designed by Louis Remy de la Fosse in 1719, is ideal for festive occasions, and also provides a truly extraordinary atmosphere for exhibitions and concerts. The light-flooded hall measures 460 m².

- | Suitable ambience for receptions and gala dinners
- | Extendable stage
- | Barrier-free access to the hall
- | Direct access to the orangery garden. The forecourt is also available for hire
- | Two adjoining rooms and artists' dressing rooms
- | For events with up to 468 people

More about
the Orangerie:

CIVIC CENTRES

Each of the four additional civic centres in Darmstadt has its own unique charm, adding the perfect finishing touch to your event at the darmstadthaus. All halls are barrier-free and equipped with Wi-Fi and state-of-the-art technology.

Bürgermeister-Pohl-Haus:

A functional sports and cultural venue for events with up to 600 guests.

Zum Goldenen Löwen:

Rooms of various sizes. The Löwensaal can accommodate up to 200 people. Additional conference rooms are available on the upper floor.

Justus-Liebig-Haus:

The 211 m² Dr.-Günter-Ziegler-Saal can accommodate up to 285 people. The adjoining foyer and the spacious entrance hall can also be used.

Ernst-Ludwig-Saal:

The 'Schwanensaal' ("swan hall") is a 260 m² hall with a stage and provides a suitable setting for events for up to 200 people.
