
Hygiene concept darmstadtium (in extracts)

Prior to the start of an event, written agreement must be reached with the darmstadtium and the event organiser on the hygiene measures to be implemented by third parties. The darmstadtium reserves the right not to allow events to begin or to cancel them if requirements, in particular current legal regulations, are not met. The hygiene rules always apply in event operations, including event set-up and dismantling work.

- | The darmstadtium is only open for events; access for guests is prohibited.
- | Access from the underground car park into the darmstadtium remains closed. Access to the underground car park is via the entrance on Alexanderstraße.
- | Wearing a medical mask is strongly recommended, especially in crowded situations.
- | It is recommended to observe distances and hygiene measures, such as thorough hand washing and the cough-sneeze etiquette.
- | As far as possible, the organiser must ensure, that only symptom-free persons are granted access to the event.
- | If several events are taking place at the same time, hygiene measures must be coordinated in such a way that a meeting of visitors is prevented, that a meeting of visitors is reduced to the necessary minimum.
- | The surfaces of tables, chair handles, door handles and WCs shall be thoroughly cleaned with a surfactant-based cleaner before and after each day of the event. The same applies to highly frequented surfaces (handrails, cloakrooms and accreditation counters, visitor furniture, etc.).
- | The condition of the WCs and especially the soap and towel dispensers is verifiably checked at short intervals by the cleaning service provider.
- | The event rooms, foyers and WCs of the darmstadtium are equipped with ventilation systems that provide ventilation without recirculation.
- | The darmstadtium provides barrier-free information about the hygiene measures in German and English.
- | The digital signage system of the darmstadtium is included in the communication of the hygiene measures.
