

Hygiene information COVID-19

In consequence of the SARS-CoV-2 pandemic, specific hygiene requirements apply during your stay inside the darmstadtium.

| All visitors, employees, event organisers and service providers must wear **face masks** on the premises of the darmstadtium. At events, those attending may remove their masks as soon as they are seated and provided the physical distancing rules are adhered to.

| Maintain the recommended **minimum physical distance of 1.5 metres** between you and other people at all times.

| **Wash your hands regularly and thoroughly** to prevent infections.

| Infections can be prevented if you **avoid touching your face** or eyes with your hands.

| **Adhere to the coughing and sneezing etiquette:** When coughing or sneezing, please maintain a physical distance of at least one metre from other people and turn away from them. You should preferably sneeze or cough into a disposable handkerchief. Use this disposable handkerchief only once and then dispose of it in a waste bin with a lid. If you do have to use a fabric handkerchief, you should wash it at 60°C afterwards. Always remember to thoroughly wash your hands after blowing your nose, sneezing or coughing! If you do not have a handkerchief handy, you should cough and sneeze into your elbow, ensuring that your mouth and nose are covered, and also turn away from other people.

General hygiene measures at the darmstadtium

| The surfaces of tables, chair handles, door handles and toilets will be cleaned thoroughly with a cleaner that contains tensides before and after each event day. This cleaning is carried out daily and regularly, depending on the type of event, and documented. The same applies to highly frequented surfaces (lift buttons, hand rails, cloakroom and registration counters, visitor furniture etc.) during an event.

**We hope you enjoy your time
at the darmstadtium – stay healthy!**
